Hiring Manager CARIAD

Dear Hiring Manager,

I am writing to express my enthusiasm for the intern/working student position within the "Architecture & Technologies" team at CARIAD, as advertised. With a strong foundation in computer sciences, bolstered by hands-on experience in C/C++, Python, Matlab & Simulink, I am excited about the opportunity to contribute to the development and transformation of digital mobility within the Volkswagen Group.

My academic background and project work have equipped me with a solid understanding of the skills required for the advertised job. I am particularly drawn to the role's focus on enhancing vehicle diagnostics and over-the-air updates.

I am fluent in both English and conversational in German, which, combined with my technical skills and a keen interest in automotive technologies, positions me well to collaborate effectively with your team and across brands. The chance to work on the E/E and software architecture for prestigious brands like Volkswagen, Audi, and Porsche is a challenge I am eager to embrace.

Thank you for considering my application. I am looking forward to the opportunity to discuss how my background, skills, and enthusiasms align with the goals of CARIAD. I am eager to contribute to your team's success and the advancement of innovative automotive technologies.

Sincerely,

Anil Celik Maral
